Design is a powerful tool for communication and business success. With 7.5+ years of experience in print, web, and mobile design, I specialize in creating intuitive, user-centered solutions that deliver meaningful experiences. Skilled in Adobe tools and modern design technologies, I combine strong problem-solving abilities with team leadership to drive innovation and exceed client expectations.

Work Experience

Indegene Bangalore May 2022 - Present

Senior UI UX Designer

- Led end-to-end UX strategy and design for complex, enterprise-grade medical applications for global clients, supporting critical day-to-day healthcare operations.
- Planned and executed user-centered design processes for B2B web and mobile enterprise products, ensuring usability, scalability, and business alignment.
- Conducted stakeholder workshops and UX research to translate business requirements into intuitive solutions.
- Designed wireframes, high-fidelity UI, interactive prototypes, and complete user workflows to effectively communicate design intent.
- Built and delivered multiple scalable Design Systems, establishing visual consistency, reusable components, and cross-platform standards.
- Created and maintained comprehensive visual style guides and UI documentation for design and development teams.
- Collaborated closely with Product Managers, Developers, and cross-functional teams in Agile environments to ensure seamless implementation.
- Led client calls and design presentations, confidently articulating design decisions and aligning stakeholders on product vision.

- Mentored and guided junior designers, provided training sessions, and ensured high-quality design output across the team.
- Managed end-to-end design lifecycle from user research to post-development UX audits, ensuring on-time delivery and continuous product improvement.
